

BST (BioSpan Tech) Cleaner

Revised 03/2025

PRODUCT DESCRIPTION

BST (BioSpan Tech) Cleaner is a liquid maintenance solution for the BioSpan Spray System. BST is designed to remove polymers, latex, and oil-based residues when flushed through the system to maintain efficiency.

RECOMMENDED USES

- Primary Use: Flushing and clearing the BioSpan Spray System of polymer and product residue.
- Additional Use: Cleaning latex and oil-based materials from other non-porous surfaces.
- May be used in parts washers and as a degreaser

PRODUCT SPECIFICATIONS

Appearance	Yellow to amber thin liquid, slight citrus or fruity fragrance
pH	5.6-5.8
Specific Gravity	0.8935
Flash Point	211°F+ Tag Closed Cup
Shelf Life	5 years in sealed manufacturer's container

APPLICATION

- Applied as is. Do not dilute the product.
- When using BST Cleaner to clean a spray unit, flush spray nozzles and all hosing.
- May collect cleaner rinsate and re-use in the spray system for cleaning up to 5 cycles
- Apply BST Cleaner directly to the surface to be cleaned for polymer removal.
- Thoroughly wet the surface and allow sufficient time for it to penetrate.
- Reapply to surfaces until all is removed.
- Rinse with soapy water if desired.

CAUTION/LIMITATIONS

- Do not dilute.
- Always pre-mix before applying.

SURFACE PREPARATION

BST Cleaner can be applied directly to the non-porous surface to remove polymers, residue, or oils. BST cleaner is primarily used to flush the BioSpan Spray systems of all polymer and product residue. There is no special equipment preparation needed. It may be good to prepare a collection point if rinsate is to be re-used to flush the spray system.

Revised 12/2024

SAFETY/HANDLING

- Personal Protective Equipment (PPE) such as goggles, gloves and impervious clothing are recommended.
- First Aid: Refer to the Safety Data Sheet for first aid measures. Avoid inhalation and ingestion. If exposed to skin, wash with soap and water. If exposed to eyes, flush eyes immediately.

STORAGE

Store in the manufacturer's sealed container. Store in a dry, temperature-controlled environment that is well-ventilated. Do not store outside. Do not expose to high heat or freezing temperatures. To use stored product, mix for at least 45 minutes at ambient indoor temperature before application.

DISPOSAL/CLEANING

- Reactivity with water: none
- Disposal methods: Dispose of this material by incineration or by a licensed waste disposal company. Contaminated absorbent material may be disposed of in an approved landfill. Follow all local, state and Federal disposal regulations.
- Avoid contact with strong acids, strong bases and oxidizing agents. Avoid heat or an open flame.
- In Case of Spill: Floors may become slippery. Use protective equipment. Contain liquid spills using a barrier or absorb using inert material. Scoop or shovel absorbed material into containers. Wash area with soap and water.
